Subject: 20+ Residential parking Spaces allocated to Triage Entertainment at Valley Park

Dear Records Request Officer:

My reason for making this Public Records Act request is that my requests for information from city staff on this matter went ignored. A PRR was not my first choice.

The City of Hermosa reserved approximately 20 residential parking spaces in North Hermosa on Gould Ave adjacent to Valley Park for Wednesday & Thursday of this week; for Triage Entertainment's use.

These parking spaces were reserved for Triage on May 15th and May 16th for thirteen hours each day between 6:30AM-7:30PM

My reason for making this Public Records Act Request is that residential parking is already extremely tight in North Hermosa.

Based on my personal observations ***I did not see any film crews or equipment in Valley Park or nearby on Wednesday or Thursday.***

In fact, when I looked, the parking spaces sat empty and largely unused both days.

I talked to several locals who frequent the park regularly and no one saw any activity at the park or nearby that would seem to justify the allocation of these residential spaces for commercial use.

It's not at all clear if Triage Entertainment even used these spaces.

I asked the parks and recreation department if they could send me a copy of the permits and the justifications for allocating these spaces with no reply. Maybe these permits weren't issued by parks and recreation and they didn't know what I was talking about.

It was not my choice but once again I am put in the position of having to make a Public Records Act Request for the following:

1. Records of Permits and work orders related to the allocation of these parking spaces to Triage Entertainment or their parent company Levity Entertainment Group (LEG)
2. Emails or records identifying the purposes, needs and reasons for allocating 20+ spaces to Triage Entertainment or LEG
3. Any records indicating if Triage cancelled the request for these parking spaces because of inclement weather or any other reason.
4. Any records showing if these parking spaces were actually used and so at what utilization rate.

Thank you
Anthony Higgins
